?The preceding unsigned comment was added by [[User:{{{1}}}|{{{1}}}]] ([[User talk:{{{1}}}|talk]] ? [[Special:Contributions/{{{1}}}|contribs]]) . Please sign your posts with ~~~~!

Usage

This template can be used to label unsigned comments in a conversation, to attribute them to the correct user.

`{{subst:unsigned|`*`user name`*`|`*`date`*`}}`

user name
: name or IP of user who left comment

date
: (optional, but recommended) datestamp from edit history (remember to label it UTC)

The datestamp from the edit history appears in your local time that is set in your preferences.
In order for the time to be UTC, adjust it using the difference you designated between the server time and local time.

Example

Typing: `{{subst:unsigned|Admin|09:20, Jun 17, 2005 (UTC)}}` will yield: ?The preceding unsigned comment was added by Admin (talk ? contribs) 09:20, Jun 17, 2005 (UTC). Please sign your posts with ~~~~!
