

Template:Sub

[\[edit\]](#) [\[purge\]](#)  Template documentation
This documentation transcluded from Template:Sub/doc([edit](#) | [history](#))
Subscripts text, i.e.

`{{subst:Sub|Text to be subscripted}}` produces: Text to be
subscripted

Text can also be subscripted simply by using the `<sub>` and `</sub>` tags, so that:

`<sub>Text to be subscripted</sub>` also produces: Text to be
subscripted

See also

- `{{sup}}` (superscript text)
- `{{su}}` (superscriptsubscript text)
- `{{sup sub}}` (text^{sup}_{sub})
